

ADVANTAGES

- **Durable**
- **Water Impervious**
- **Freeze Thaw Resistant**
- **Non-corrosive**
- **Reusable**
- **Superior Strength**
- **Lightweight**
- **Instant Foundation Support**
- **Built-in Quality Control**

STRONGER
21 kips working/
42 ultimate

**EASIER TO
HANDLE**
18" diameter

LIGHTER
27 lbs
(13% less)

**BUILT-IN
PIPE POCKET
DESIGN**

The best precast footing just got an upgrade. The durability, strength, and ease of installation of the original Polybase® made it the superior foundation solution for most interior pier support systems. Now, the redesigned Polybase® has been engineered to be even stronger and lighter, boasting greater load capacities and an easier-to-handle 18" diameter. The innovative Pipe Pocket Design streamlines workflow and reduces cost by eliminating the need for a base plate. Our modular, corrosion-resistant foundation is the strongest, most durable precast foundation in the industry.

- Redesigned to improve performance at no additional cost
- Reinforced with double carbon fiber matting: load capacities increased to 21 kips working/ 42 ultimate
- Now 43% lighter than conventional concrete blocks
- Built-in Pipe Pocket Design: Streamlines workflow and reduces cost by eliminating the need for a base plate

VARIABLE SUPPORT FUNCTIONALITY & ADAPTABILITY

2 7/8" Pipe
4 x 4 Steel Post (flush cut)
4 x 4 Wood Post (minimal)
6 x 6 Wood Post (nominal)
4 x 4 Joist
2 x 4 Joist

Polybase® Allowable and Ultimate Loads

PolyBase®
Model #PBUP18RD

ALLOWABLE LOAD (LBF.)	ULTIMATE LOAD (LBF.)
21,000	42,000

*Tested Utilizing 2 7/8" Diameter Schedule 80 Pipe

POLYBASE®
